

STUDENTS

TVCC serves over 5,500 students annually. Most of the students are from Oregon or the neighboring Idaho communities. The largest group of students is 18-23 years old, but many older returning adults are also served. Nearly 41% of students enrolled in credit-bearing courses take courses for academic transfer programs, while roughly 59 % enroll in one of the many professional-technical programs offered at TVCC. Other students enroll for personal enrichment, professional development, or the skill preparation necessary to enter an academic or professional-technical program. More than 54% of students enrolled in credit-bearing courses attending TVCC are women.

Because TVCC is a small college, the emphasis is on individual learning. Faculty involvement, small classes, student activities, and individualized attention contribute to an appealing academic and social atmosphere where students succeed.
